

Carlos Aguilar-Hidalgo

VP – Customer Experience & AI Transformation

Ennis, TX • caguilaron@gmail.com • <https://linkedin.com/in/caguilahr> • (972) 800-4455

PROFILE

Executive leader with over 11 years of experience shaping customer experience strategy, contact-center transformation, and enterprise AI adoption in regulated, high-growth environments. Proven ability to set executive-level AI and CX strategy and translate emerging technologies into measurable improvements in service quality, customer and patient access, and operational efficiency. Experienced in leading cross-functional clinical, operations, technology, and executive teams; advising senior leaders on investments, governance, and responsible AI deployment in HIPAA- and SOC 2-regulated settings. Skilled in scaling contact-center and telehealth operations, modernizing legacy systems, and turning AI pilots into enterprise-wide capabilities.

CORE COMPETENCIES

Customer Experience Strategy & Design • Customer Journey Optimization • Contact Center / CCaaS Transformation • BYOC / SIP Telephony • Omnichannel Strategy • Workforce Management (WFM) • AI Strategy & Enterprise Transformation • Generative AI / LLM Integration • Conversational AI & Voice Automation • Workflow & Process Automation • KPI/SLA Management • NPS/CSAT • Executive Stakeholder Alignment • Cross-Functional Program Leadership • Change Management • Vendor Evaluation & Technology Investment • Systems Integration & Legacy Modernization • Regulated-Industry Compliance (HIPAA, SOC 2) • Team Building & Talent Development

PROFESSIONAL EXPERIENCE

LifeMD

VP of Customer Experience & AI Transformation

April 2026 – Present

- Own enterprise AI transformation strategy across clinical operations, customer experience, and workforce optimization for a 240-agent contact center, leading an AI engineering team and aligning initiatives to measurable outcomes for executive leadership.
- Built QAI, an AI QA platform replacing manual review, matching human graders 93%+ of the time across all calls.
- Deployed Bland AI voice-agent workflows across more than 190k total calls, achieving over 60% call deflection.
- Achieved up to 6.3x ROI and reduced FTE cost per call from \$6.75 to as low as \$0.16.
- Build and scale agentic AI infrastructure spanning voice (Bland AI) and chat (Stack AI).
- Partner directly with executive leadership to set AI adoption priorities and guide investment decisions, evaluating vendor platforms including OpenAI, AWS Bedrock, Anthropic, Bland AI, and Stack AI, among others.
- Established AI adoption reporting, leadership review forums, and team-specific enablement programs that drive organization-wide AI literacy and adoption.

Director of Call Center Innovation

August 2024 – April 2026

- Lead strategic transformation of contact-center operations for agents through internal AI virtual assistants, reducing average handle time by 40% and improving response times.
- Deploy omni-channel CCaaS and process-automation tools, advancing customer-experience and workforce-efficiency goals.
- Lead complex integrations connecting legacy infrastructure with modern AI capabilities, including 2 custom-built CRMs, messaging and email platforms, a ticketing system, and quality-assurance automation.
- Identified the opportunity to strengthen the telephony stack through BYOC SIP, vetted multiple vendors, and personally led the end-to-end implementation with Bandwidth.

Technology Manager of Patient Experience

June 2023 – August 2024

- Led technology transformation for telehealth platforms supporting a 240-agent contact center, focused on AI, automation, and next-generation contact-center integration.
- Delivered secure, cross-functional solutions across several projects, aligned with clinical, business, and technology stakeholders.

PROFESSIONAL EXPERIENCE

ConnexAI

Head of Technical Services for North America

September 2022 – June 2023

- Built and led the North American Technical Services and Implementations team for Connex's CCaaS platform, growing the engineering team to 8 engineers and tripling the number of accounts under management.
- Built executive customer relationships and served as escalation leader across more than 80 accounts, identifying opportunities to expand platform value and improve outcomes.
- Created streamlined project-team workflows and a training program to accelerate new-engineer ramp-up.

RingCentral

Contact Center Engineer II

August 2021 – September 2022

- Directed project scope, approach, and key deliverables for a 3,000-seat global contact-center implementation, leading the EMEA and APAC rollout on NICE CXone and RingCentral.
- Led technical architecture discussions for the design and implementation of IVR integrations across global deployments.
- Analyzed, developed, and enhanced contact-center accounts while building strategic internal and external relationships that drove organizational growth beyond project scope.

NewVoiceMedia / Vonage

Managed Services Team Lead

February 2021 – August 2021

- Built and trained a 5-person team in Latin America to service customers globally.
- Delivered executive-level presentations showcasing Managed Services capabilities to executive audiences across the organization.
- Built reporting frameworks and dashboards, averaging 3 dashboards per customer across over 150 North American accounts, to track team metrics and operational performance.

Sr. Professional Services Consultant

February 2020 – February 2021

- Operated across operational and technical assignments as both consultant and project manager, delivering over 200 SMB implementations with turnaround times of 3–4 weeks versus the standard 6–12 weeks.
- Facilitated advanced user-training sessions for over 100 call-center audiences, covering the platform's full feature set and complex operational procedures.
- Mentored and trained 10 new Professional Services Consultants.

EARLY CAREER

NewVoiceMedia

Professional Services Consultant

August 2016 – February 2020

Guided clients through the design, implementation, and configuration of contact-center platforms, both remote and on-site. Maintained strong customer-satisfaction outcomes.

PricewaterhouseCoopers

Technology Enabled Compliance Services Associate / Technical Operations Associate

January 2015 – March 2016

Delivered client consultation and data-transformation services across enterprise platforms (SAP, Oracle). Owned infrastructure projects, including SQL/IIS server builds and network and archival initiatives.

EDUCATION

Texas Tech University, Rawls College of Business

Lubbock, TX

Bachelor of Business Administration (BBA), Management Information Systems & Telecommunications. Minors in Electrical Engineering and Mathematics. December 2014.

PROFESSIONAL ACCREDITATIONS

NICE CXone Certified Implementation Partner

August 2021
